

BENADRYL DOSAGE (ANTIHISTAMINE)

Child's Weight More Than (pounds)	20	25	38	50	100	
Total amount (mg)	10	12.5	19	25	50	mg.
Liquid 12.5mg/5ml (tsp)	$\frac{3}{4}$	1	1½	2	--	tsp
Chewable 12.5 mg	--	1	1½	2	4	tablets
Capsules 25 mg	--	--	--	1	2	tablets

- Benadryl Dosage: determine by finding your child's weight in the top row of the dosage table
- Adult dose: 50 mg
- Repeat every 6-8 hours as needed
- Don't use under 1 year of age unless instructed by your child's physician. (Reason: it's a sedative)
